### Results of Financial Operations and Comparison to Original Budget February 28, 2025

Fiscal Year 2025

#### The Harris Center for Mental Health and IDD

Resource Committee Board of Trustees The Harris Center for Mental Health and IDD (The Center)

The Report on Results of Financial Operations and Comparison to Original Budget (the Report) submitted herewith was prepared by The Center's Accounting Department.

Responsibility for the accuracy, completeness, and fairness of presentation of the presented data rests with The Center, the Chief Financial Officer and the Accounting department.

We believe the Report, as presented, is materially accurate and is presented in a manner designed to fairly set forth the financial position and results of operations of The Center.

The Center's accounting records for its general fund are maintained on a modified accrual basis of accounting. Under this method, revenues are recognized in the period when they become both measurable and available, and expenditures are recognized when the related fund liability is incurred, if measurable.

The Report submitted herewith was prepared on a budgetary basis which is not in accordance with generally accepted accounting principles nor with financial reporting principles set forth by the Governmental Accounting Standards Board (GASB). The Report has not been audited by an independent auditor.

#### The Harris Center for Mental Health and IDD Notes to Statements Presented Non-GAAP / Budgetary-Basis reporting February 28, 2025

#### **Results of Financial Operations and Comparison to Original Budget**

#### A Harris County and Local Revenue

Unfavorable budget variance is attributed to revenue budgeted for the current fiscal year prior to incurring related expenditures. The grant reported units are below budget by approximately \$100K. We are monitoring contract progress for potential impacts on the budget.

#### **B** State Contract and Grants

The primary driver of the unfavorable variance is attributed to contracts budgeted during current fiscal year, prior to related contract approvals resulting in low expenditures/billings for the month. In addition, for new contracts, variance is primarily attributed to a timing difference until personnel is hired. \$1M revenue contract was not renewed and will not be realized in the current year.

#### C Third party billing

The unfavorable variance is due to a decline in the number of IDD encounters and a reduction in the number of claims processed.

#### D Drugs

The primary driver of the net unfavorable variance in Drugs is the increase in retail drug pharmacy purchases, which is offset by revenue earned on the billing program. On a YTD basis the Pharmacy billing expense exceeds budget by \$876K, which is partially offset by billing program revenue exceeding budget by \$433K.

#### E Insurance, Legal and Audit

Unfavorable budget variance is primarily due to additional insurance expenses of \$175K associated with the ReCenter property purchases.

#### F Dues & Subscriptions

IT related Dues & Subscriptions total \$202.1K for the current month and \$2.5M fiscal year to date.

#### **G** Other expenditures

YTD unfavorable budget variance is primarily related to ongoing transition pertaining to the newly purchased ReCenter properties; YTD other expenditures total \$125K.

#### Page 6

#### The Harris Center for Mental Health and IDD Notes to Statements Presented Non-GAAP / Budgetary-Basis reporting February 28, 2025

#### **Results of Financial Operations and Comparison to Original Budget**

#### H Capital Outlay

YTD Capital Outlay consists of approx. \$1.9M settlement payment related to the purchase of real estate (ReCenter agreement) and approx. \$3.3M in construction costs for the 6168 Apartments, which is partially offset by a forgivable loan in Other Financing Sources. During the current month, the capital outlay expenditures include \$1.2M in construction costs for the 6168 apartments.

#### I Other Financing Sources

Draw down of funds from the City of Houston forgivable loan going towards the construction of the 6168 Apartments.

#### Page 8

#### The Harris Center for Mental Health and IDD Notes to Statements Presented Non-GAAP / Budgetary-Basis reporting February 28, 2025

#### **Balance Sheet**

#### AA Cash and Investments

The decrease in cash is primarily due to normal operations. In March, we have received \$25M for the performance contract 3rd Quarter.

#### **BB** Inventories, Deposits & Prepaids

The decrease is due to amortization of the quarterly payment to HCPC made in January 2025 in advance of services provided.

#### CC A/R from Other Governments

The increase is primarily attributable to additional receivables for \$3.8M in Charity Care Pool (CCP) funding, which includes the revised estimate and is paid annually around April, and \$636K in Medicaid Administrative Claiming (MAC) funding, which is paid generally quarterly and now expected in March. These increases are offset by decreases in receivables for various grants & contracts.

#### **DD** Unearned Revenues

Unearned revenues decreased due to use of funds provided through state and federal revenue allocations received in advance of performance of related obligations.

#### EE Noncurrent liabilities

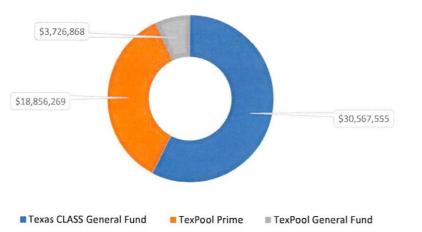

The increase from month to month is primarily related to an additional \$1.1M drawdown from the City of Houston forgivable loan for the 6168 Apartments construction, bringing the total drawdown to \$3.3M.

# Due Diligence Memo Consultant for Electricity Energy Provider Project# FY25-0326

Purchasing received a request from the Facilities Department for an Electricity Energy Provider for the Agency's facilities. Contracting with an Energy Consultant is needed to assist with the energy provider procurement process. Utilizing an Energy Consultant offers several benefits including: access to expert market knowledge, cost savings through competitive pricing analysis, identification of suitable contract terms, risk mitigation and an understanding of complex energy options to name a few. A consultant will manage the procurement process in collaboration with The Harris Center Procurement team and organization stakeholders.

#### History

The Agency's electrical provider was selected in 2022, with the collaboration of a consultant, James Eggebrecht with Texas A&M. James Eggebrecht worked with the Harris Center Procurement team to develop the Request for Proposal (RFP) and manage the solicitation process. Engie was awarded the contract. Once approved by the Board pricing was locked in for a three-year contract that *expires May 31*, 2025.

#### **Project Team**

The Project Team consists of the following members: James Blunt, Buyer II, Rolanda Wilkes, Procurement Data Analyst, Sharon Brauner, Purchasing Manager, Nina Cook, Director of Purchasing, Michael Mitchell, Director, Facility Services, Karen Hurst, Assistant Director, Facility Services, Lisa Cantu-Espinosa, Facility Services Coordinator, Ernest Savoy, General Counsel Assistant, Legal Services, Belinda Stude, Contracts Coordinator Sr.

Procurement initiated the process to identify an electric energy consultant. Procurement contacted James Eggebrecht and Texas A&M, we were informed that James had retired, and Texas A&M no longer provided this service. Procurement then began the search for a new consultant. The search resulted in identifying several energy consultants that can manage the solicitation process for electricity. All three (3) vendors have purchasing cooperative contracts that the Harris Center may utilize.

Vendors that can provide consulting services for the provision of electrical energy are as follows:

- 1. **Tradition Energy** The nation's largest independent energy procurement and sustainability advisor. Thirty-eight years in the energy market. They have 205 healthcare clients managing a total of 5.3 billion kilowatts and \$6 billion in expenditure. Tradition is a member of the Agency's purchasing cooperative, Omnia Partners. Tradition has access to seventy-five (75) energy providers to request bids. This gives them a scale of business that results in more energy suppliers, offering better prices and commercial terms. Their fee is based on the Agency's amount of energy and accounts. The Agency will not be charged for Tradition's services. The energy supplier will pay Tradition for their services. Per the Omnia contract, the fee the supplier pays Tradition would be \$0.004 per kilowatt hour based on our current usage for the term of the contract. This would be added to the Agency's total cost per kilowatt-hour. The timeline to complete the process is 7 to 10 days after background documentation has been assembled.
- Energy Edge They have been in business since 2009. Serve a wide range of businesses and institutions. Energy Edge has access to one hundred (100) electricity and gas supplier relationships. Currently they have a contract with Harris County. They are members of the purchasing cooperative, The Interlocal Purchasing System (TIPS). They can develop targeted RFP

and pre-qualification of suppliers. They review overall supplier capabilities and financial strength along with price. Their price is \$0.002 per kilowatt hour based on our current usage for the term of the contract. The timeline to complete the process for an RFP is 4 to 8 weeks.

3. **Prism Energy Solutions** – They are a full-service natural gas and retail electricity consultancy and broker that has been in business since 2010. Prism Energy represents commercial, industrial and institutional clients whose aggregate annual usage exceeds 2,000,000,000 kilowatts per hour, or nearly \$200 million annual expenditure. Prism is a member of the purchasing cooperative, The Interlocal Purchasing System (TIPS). Prism Energy offers a 5% discount to all TIPS members. They provide both competitive bid and sealed RFP structure services. For an annual forecast usage of ten (10) million kilowatts per hour or less is \$9,500.00 for a competitive bid structure and \$14,250.00 for a sealed RFP structure. For an annual forecast usage of ten million kilowatts or more the price is \$14,250.00 for a competitive bid structure and \$17,575.00 for a sealed RFP structure. The timeline to complete the RFP is 3 to 4 weeks. A bid can be completed in 1 to 2 weeks.

Vendors	Experience	Purchasing Coops	Timeline	Price
Tradition	38 years	Omnia Partners	Bid Process - 7 to 10	\$0.004 per kilowatt
Energy			Days	hour
Energy Edge	16 years	TIPS	RFP Process – 4 to 8 Weeks	\$0.002 per kilowatt hour
Prism Energy Solutions	14 years	TIPS	Bid Process – 1 to 2 Weeks RFP Process – 3 to 4 Weeks	

All vendors offer additional services at a cost.

#### Facilities Recommended Vendor:

#### **Prism Energy Solutions**

Based on the Facilities team review of demos/presentations provided, the team has selected Prism Energy Solutions as the provider for requested services due to their competitive pricing structure with no hidden fees, years of experience, shorter timeline to complete the process, a contract with purchasing cooperative, an added service, a compliance binder and provision of routine market updates and issue resolution with supplier.

The Harris Center Procurement team is requesting Board approval to engage a consultant to perform the procurement process in collaboration with The Harris Center's Procurement team and the Facility Services team.

The contract shall commence with a tentative award date, and shall remain in effect unless terminated, cancelled, or extended for one (1) year.

The total NTE (Not to Exceed) will be based on the purchasing option of \$9,500.00 for a bid process and/or \$14,250.00 for an RFP process. Funding source is Unit#1817, and GL Code# 557001.
